NRA BASIC PERSONAL PROTECTION IN THE HOME - FOR SINGLES, COUPLES & PARENTS

Classes in 2023: TBD. The fee is \$95, \$45 for HSA members & family.

The class consists of three key parts. The first part is to learn all the things you and your family can do to prevent a home invasion from happening while at the same time preparing to protect yourself and your family from harm if an invasion does occur. The second part is to learn how to prevent the invader from seriously injuring yourself or your family by taking charge of the situation and, in the gravest extreme, by using a personal defense firearm. The third part is to learn what to do after an invasion has been stopped including how to prepare for the legal nightmare and deal with the emotional trauma that is sure to follow.

If you have decided that you are capable of using deadly force if absolutely necessary to protect yourself and your family from a violent home invader and you are experienced with your handgun then you absolutely need to take this course. If your life partner is not a "gun person" they can share your student kit, observe the shooting exercises, and help you with the final exam for no fee. We do this because both of you must absolutely know this to protect yourself and your family.
